

FORMULA SIX

VEHICLE CLEANER

Vehicle cleaner. Brushless vehicle cleaner for use with pressure washers.

SPECIFICATIONS

- Appearance: Clear liquid
- Odor: Mild, characteristic
- Density: 8.65
- pH: 12.7
- Refractive index: 1.3438
- Hard water tolerance: >12000 ppm
- Solvent %: None
- Flashpoint: None
- USDA rating: A-1
- Foam generation: Moderate
- Stability: Stable
- Freeze/thaw stability: OK 3 cycles
- Shelf life: 1 year minimum

FEATURES AND BENEFITS

- Special detergent blend
- Excellent hard water tolerance
- Will not harm
- Economical in use

TARGET SURFACES

- Brushless vehicle cleaning detergent concentrate
- Safe on all vehicle surfaces through mechanical cleaning devices with cold or hot water

Available in 4X1 gallon cases and 55 gallon drums

DIRECTIONS

- Clean only cool vehicles; hot vehicles may streak
- Set dilution control on pressure washer or manually dilute Formula Six 25:1 for removing heavy soil (5 oz. per gallon), or 40:1 for normal soil (3 oz. per gallon).
- Divide vehicle into workable sections. Apply cleaning solution from the bottom up. Allow to work for a few minutes. DO NOT ALLOW TO DRY.
- Adjust pressure washer to deliver water only. Apply high pressure water to clean vehicle form bottom up
- Rinse vehicle thoroughly from the top down. Overlap cleaning areas to prevent missed areas. Repeat for entire vehicle
