

STEAM & PRESSURE

STEAM & PRESSURE DEGREASER

Synergy's Steam & Pressure Degreaser instantly emulsifies oily soils. It is a patented formula that produces fast, economical cleaning and is safer for workers and the environment. Steam & Pressure contains corrosion inhibitors that are safe on most industrial surfaces and equipment and is virtually odorless when using.

SPECIFICATIONS

- Appearance: Clear, red liquid
- Odor: No distinct odor
- Density (lbs/gal): 9.6
- pH (Conc./1%): 13.9
- Refractive Index: 1.4370
- Foam Generation: Moderate
- Stability: Stable
- Freeze/Thaw Stability: OK 3 Cycles
- Shelf Life: 1 Year minimum
- D.O.T classification: Corrosive
- Biodegradable: Yes

DIRECTIONS

- Dispense Steam & Pressure degreaser into equipment reservoir at strongest setting
- Apply to surface liberally. Allow to work. Rinse thoroughly

Available in 2.5, 55 and 275 gallon containers.

RECOMMENDATIONS:

- This is an excellent "catch-up" cleaner that will perform best when used regularly
- Overlap your cleaning passes to assure uniform cleaning when heavy soil is present
- When applying with a pressure washer, stay out of mist
- NOT recommended for removal of baked-on or dried, hardened soils
 - Use a cleaner that is solvent fortified
- DO NOT use in windy conditions-mist can be blown out of work area
- NOT recommended for use on brass, copper or aluminum

EQUIPMENT LIST:

- Pressure Washer
- Steam Cleaner
