

Safe Surface Kit

Raise the level of your Sanitation- Protect your Employees and Visitors

NuFiber's Program Makes it easy to properly clean and disinfect any above floor communal touch surfaces like push plates, tabletops, door handles, basins, sinks, manufacturing equipment, control surfaces and more. This simple, all-in-one-box kit includes:

NuFiber Tools

Disposable microfiber cloths for thorough cleaning the first time and a charging bucket to pretreat the cloths.

Pre-Clean 110

A powerful cleaner yet easy on surfaces specially formulated to be compatible with Disinfectant 220. It will quickly clean gross soils to allow Disinfectant 220 to thoroughly disinfect

Disinfectant 220

The companion product to Pre-Clean 110 is a brand new quat- based disinfectant that is effective against Emerging Pathogens. It also has kill claims as quickly as 5 seconds

Process – Identify the areas to be cleaned. Pretreat 50 cloths in the charging bucket by placing them in the bucket and pouring one half gallon of Pre-Clean 110 for 5 minutes. Thoroughly pre-clean gross soils using the treated cloths. Next, spray Disinfectant 220 according to label directions to disinfect.

“ *Cleaning and disinfecting surfaces is an important, two-step process central to any effort to reduce the risk of exposure to COVID-19.* ”

EPA/CDC Press Release 4/29/20

“ *Cleaning with soap and water removes germs, dirt, and impurities from surfaces. It lowers the risk of spreading infection. Disinfecting kills germs on surfaces. By killing germs on a surface after cleaning, it can further lower the risk of spreading infection.* ”
